

# 多邊切角機 MDT96 系列

## MDT96 Multi-Side Cutting Machine

手工具套筒，接桿切角。  
多邊形切角一次完成。  
快速!靈活!

For sides cutting on hand-tool shank and connection rods etc. Multi-sides cutting are accomplished at a time. High Speed! Extreme Smooth!

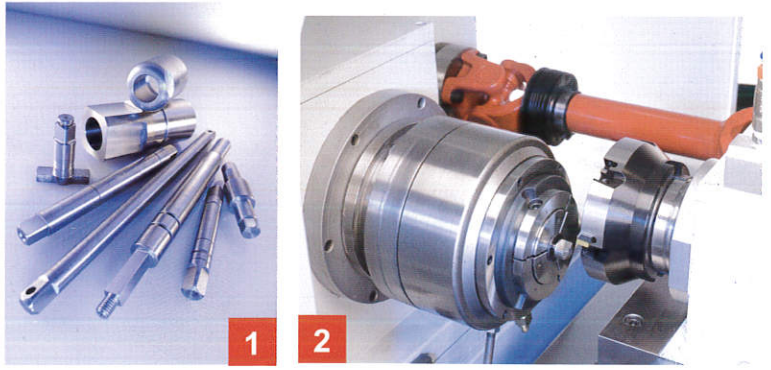

MDT96-12B

### 機器特性

- 適用於圓柱體切削成2、4、6等偶數邊形。
- 主軸頭移動採油壓滑台。
- 本機為研磨螺旋齒輪傳動。
- 高剛性、高效率、省刀具。
- 主軸內附定位裝置，可任意調整兩端切角面之相對角度。
- 本機可訂製奇數切角。
- 本機可加裝仿削裝置，可做曲面加工。
- 本機可加裝伺服控制器，做多段、任意曲面切削。

### Features

- Designed for cutting 2、4 and 6 Sides on a cylindrical part.
- Spindle head movement is driven by hydraulic slide.
- Transmission system employs ground helical gears.
- High rigidity ; High efficiency ; Tool saving.
- The spindle is equipped with indexing device, allowing for adjusting cutting positions of sides
- Old sides of cutting is available upon request.
- Available to equip with copying device for curved surface machining.
- The machine is available to equip with servo control for multi-stage and curved surface machining.
